# DESIGN & TECHNOLOGY SOLUTIONS

## Service Offerings

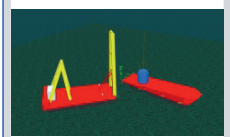

**Ship Conversion**  
(FSO, Jumboisation)

**Retrofits**  
(BWTS, NeoPanamax, Scrubber)

**LNG Solutions**  
(FSRU, Dual Fuel Conversions)

**Special Studies**  
(FEM, Mooring, Stability)

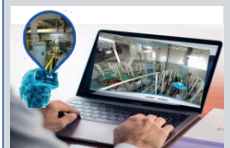

**Services**  
(IHM, 3D Scan, UTM, Inspections)

**Supervision**  
(New Build, DD, Damage Repair)

**Decarbonisation**  
(EEXI-CII, CFD, ESD Retrofit)

**Digital Solutions**  
(AR/VR, Inspections, Locator)

## ABOUT VEDAM

Vedam is a new-age engineering company dedicated to providing innovative design and technological solutions for global maritime companies. With highly qualified 200+ team members and 35+ engineering software, Vedam develops future-ready design and software that drives industry growth and benefits the planet.

## DESIGN SERVICES

- Ship Design • Production Design • Conversion & Retrofit • Decarbonization Studies • Site Supervision
- Engineering Analysis (FEM CFD, Mooring, Hydrodynamics) • LNG - FSRU Projects • Dredgers
- Marine Services (3DLS, IHM, D2 Sampling, UTM, Surveys)

## DIGITAL SOLUTIONS

App for onsite / remote inspection

VR based ship visualization & document management

Simplifying crew rest hour management
