

3000 DWT Multipurpose Vessel

MAXIMISE LOGISTIC EFFICIENCY

We designed this vessel for shallow water riverine operation and to carry Coal or Iron ore. Its cargo hold is optimally sized to carry containers and its lightweight hatch cover provides rainwater protection (dry coal). Specially customised to operate in nw-1 & nw-2. The design has provision for future upgradation to LNG propulsion without any functional change.

Principal Particulars:

Length	83 m	Complement	11 Persons
Breadth	18 m	Containers	142 TEU
Depth	5.0 m	Engine Power	2 X 740 HP
Draft	3.0 m	Generators	2 X 40 KVA
Speed	8 Knots	Propeller	2 X FPP
Notation	RSV Type 2	Steering Gear	2 X Electro Hydraulic type
