

DREDGER

Design & Engineering Solutions

Customised Design (New & Conversions)

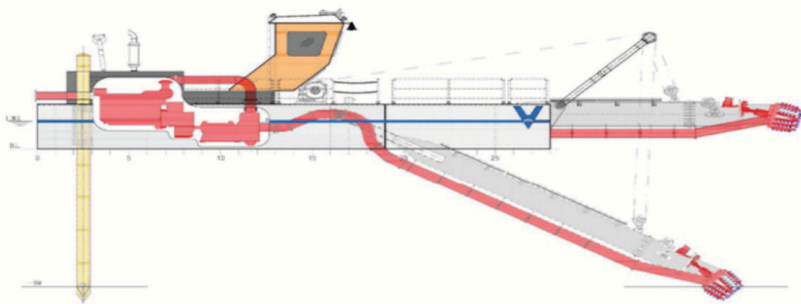

Trailing Suction Hopper Dredger

Cutter Suction Dredger

Water Injection Dredger

Project Management

Equipment Package

DREDGER

Track Record

450 CBM TSHD

1000 CBM TSHD

Bulk Carrier to TSHD

2400 CBM TSHD

90 CBM TSHD

Self Propelled CSD (14")

ABOUT VEDAM

Vedam is a new-age engineering company dedicated to providing innovative design and technological solutions for global maritime companies. With highly qualified 250+ team members and 35+ engineering softwares, Vedam develops future-ready design and software that drives industry growth and benefits the planet.

DESIGN SERVICES

- Ship Design
- Conversion & Retrofit
- Engineering Analysis (FEM CFD, Mooring, Hydrodynamics)
- Decarbonisation Studies
- LNG-FSRU Projects
- Green Retrofit Design
- Production Design
- Marine Services (3DLS, IHM, D2 Sampling, UTM, Surveys)
- Site Supervision
- Dredging Solutions

DIGITAL SOLUTIONS

Measure, monitor & control emissions

Inspection app for efficient onsite and remote inspection

VR based access to your Ship and its documents/data

Trim Optimisation
